Have you ever obtained a rescue dog in the past? _____ If yes, did you have any problems? Please explain

Pet ownership is a **serious** responsibility. The whole family needs to be involved in the decision to welcome a dog into the family. Our policy is to insure that each person who adopts a dog not only be aware of that responsibility, but that each person be willing and able to accept this responsibility morally, physically, and financially. We have found that not every person who desires to own an ACD should own one. They are an active and sometimes aggressive breed, but wonderful in the right home.

This questionnaire was designed to aid both you and us in determining if you and your family are indeed adequately prepared to assume the type of responsible pet ownership we are endeavoring to provide for our rescue dogs.

Please read carefully and sign:

I understand that there will always be an adjustment period for any dog coming into my home. The average is three (3) weeks to three (3) months and I am willing to work to make this pet a member of the family. I also understand that many of these dogs have survived tremendous odds and need lots of TLC. I understand that, the Corporation reserves the right to check on the welfare of this dog on my premises, and to reclaim both possession and ownership without payment of any kind with or without court action. In the event I do not comply with the adoption contract provisions and the Corporation reclaims the pet, I waive claims for trespasser damage that I might otherwise have arising out of such reclaiming. I also agree that if the information on this questionnaire is not accurate to the best of my knowledge, I forfeit all rights and ownership of the ACD adopted from the Corporation. I also agree that if at any time in the future I can no longer keep this dog, I will not give it away or sell it. I will contact the Corporation for arrangements to be made for the dog's return to it.

I have read completely the above questionnaire, and understand it fully.
